HONOR WOULD BE WELL BESTOWED

Within the last few days movement has been launched in this state to place the name of Hon. Hugh Henry Briscoe as a possible successor to Justice Day in the seat of his resignation from the supreme court of the United States. It began slowly but in these few days has grown to proportions that may well delight its friends.

Those of us who have lived with him for these last twenty years and have watched him climb to the top of his profession and have seen his reputation spread past his boundaries in his adopted state and beyond it, know that this recognition is no more than in fulfillment of the old Biblical phrase, "Well done thou good and faithful servant." That has been faithful over few things, thou shalt over many."

Hugh Brown is not a man who can aggressively seek public office. He is the gentle, quiet and unobtrusive fighter for his personal goals. But these are the qualities in him that endear him to us. There is about him an air of moral courage and cleanliness and selflessness that makes his influence mighty far and wide; those him immediately to the community. It is the mild and temperate. It is in the ordinary that such a man can be of greatest value to the country.

Out of the wilderness has come a mighty man of valor. Nothing can stop his progress. The finger of destiny has touched him. He is on his way to the top and it is with warm affection and a deep sense of pride that Nevada presents the name of her strongest son to the consideration of the president.

REPUBLICAN GENEROSITY TO EX-SOLDIERS

Wives, sisters, mothers and sweethearts, who, through tear-dimmed eyes, say the boys off to war, are still following their interests with sympathetic concern. A well soldier is a hero, while a sick soldier is his plus a sacred appeal. We heartily approve of

the generous attitude of the Republican party toward the ex-soldier.

It will not take long to enumerate what the democratic states have done, for they have done almost nothing except to criticize the ex-soldier with words. The republican party has said it with actions, which speak louder than words.

It was Lincoln's idea to be generous with the ex-soldier and this has always been a strong theme with the republicans.

PATRIOTISM PROTECTS

"Made in Chicago" is an idea featured of recent years in the Windy city. With the same protective of encouraging home industries the south has put up a plan to the country "buy a bale of cotton and help the southern planter." We have also entered to help the midwest. It is a bit of patriotism which we are all in sympathy.

This same loyalty to the home producer and manufacturer is the backbone of the tariff. If we buy goods made in America, we keep American mill wheels turning and our money circulating among Americans. If we buy goods made abroad, we throw our own workers into idleness and seal our money abroad.

Republican tariff pushes the idea "Made in America." Democratic free trade means "buy abroad." Which do you think is the sentiment of the patriotic citizens?

PAYING OFF DEBTS

The last report of the war finance corporation furnishes striking evidence of improved conditions in agricultural circles. From August 1 to August 15, inclusive, the corporation made loans aggregating \$867,000 for agricultural and livestock purposes. During the same period it received \$6,110,287 in repayment of loans previously made for agricultural and livestock purposes. This shows that farming communities are paying off loans about seven times as fast as they are making new ones.

Since January 1 the war finance corporation has received in repayment of loans the total sum of \$142,164,543.

SPENDING LESS

Again the proof of the pudding is exhibited in the eating thereof. Just when those who are not in accord with the Harding administration, and who are seeking to be restored to political power and place, are emphasizing the extravagance of republican policies, along comes the treasury statement with another showing that lets most of the gas out of the democratic balloon. The savings effected during the first year of Harding's administration were imposing, aggregating more than a billion and a half in cash but this is being carried right on into his second year.

Besides this work of the national government, republican states are showing themselves equally generous.

Cash bonuses, preferences in

civil service, educational aid,

loans for homes or farms, employment service, loan funds to the needy, welfare commissions and admission to state hospitals are some of the benefits which repub-

lican states have extended to the soldiers.

It will not take long to enum-

erate what the democratic states
